20W

HIGH POWER ENERGY EFFICIENT LED

- LED ultra long life EPISTAR chipset
- High capacity Light Weight Lithium-Ion Battery
- Flashing and 30% mode can operate up to 12 hours.
- 50% mode can be used for up to 7 hours
- 100% mode can be used for about 4 hours.

The IP65 highly energy efficient portable rechargeable LED flood light. It is a great replacement for halogen lamps. The LED floodlight has 4 operational modes (30%, 50%, 100% and flashing) for different applications. Lamp is placed on a durable Aluminum Alloy stand with a padded handle. The flexible stand has a 360 degree swivel, and can be tilted vertically. A great companion for outdoor camping or use at a worksite. 120° beam. 240Vac and Car charger are included with this great package.
