2 WIRE DOOR VIDEO INTERCOM SYSTEM

Latest in home door intercom innovation. Intelligent twin wire system that helps in creating a quick, simple and economical installation. System setup is easy via the comprehensive yet simple menu system. With design and style to suit todays modern home decors.

- No Polarity, twisted pair, easily to wire solution. Use CAT5 or twin core drop cable.
- One common power supply to all type solution. PC6 will run 6 units, more use PS524.
- Supports from 1 to a Max. of 16 Monitors connected in one system (Use DBC4S)
- One or up to a Max. of 4 door video stations (Optional DBC4S is required)
- Each door camera can control 2 locks. Door locks are an optional extra (EL971)
- All 2-Wire H2 products are compatible. All operate on the same twisted pair wire.

4 WIRE DOOR VIDEO INTERCOM SYSTEM

An easy to install digital colour video intercom system. Supplied as individual pieces so as to design your custom system that is expandable with additional items. Suitable for DYI home or office video security solutions. Add a door sentry today for low cost and peace of mind.

- 4 wires (polarized wiring) with simple setup.
- Cable is not supplied. Order to length required.
- Use common twisted pair (eg. CAT5) up to 100M.
- For lengths greater that 100M use H4BTU booster
- System is expandable from 1 to 5 indoor monitors.
- System is expandable from 1 to 4 outdoor stations or standard CCTV cameras with optional H4MDS switcher.
- H424 & H427 are compatible on the 4 wire system however not all features are shared (eg. memory).

H4MDS 4-WAY CAMERA SWITCH & DOORWAY CONTROLLER

For more cameras (up to 4) the additional H4MDS is required. H4MDS is also compatible with standard CCTV type cameras.

1# Door Station   2# Door Station   Optional Door Latch   3# Door Station   4# Door Station

or CCTV Cameras can also be used
4 CORE CABLE

TESTED WITH CAT5 CABLE FOR UP TO 100 METRES FOR LONGER LENGTHS OR NOISY ENVIRONMENTS, SHIELDED CABLE IS AVAILABLE. *PLEASE ENQUIRE*

4" LCD COLOUR VIDEO DOOR INTERCOM H4

High resolution 4'' TFT Digital LCD Screen in a wall-mount enclosure. Large illuminated talk button. Optional "unlock" door latch available. 210x160x25mm Low profile, attractive wall mount modern design. Intercom between additional monitors. Expands up to 5 units on a single 2-Wire system, up to 16 monitors with H4-MDS expansion module. Easy to install 4 Core cable solution. Order cable separately. Requires H4 system door station camera sold separately. Includes mains power adaptor for monitor (also runs the camera). Optional Memory Module stores images captured during door bell press.

CONNECTION DIAGRAM SAMPLE

- NOTE: This is an example only. Extracted from 4 Wire 7" Installation Manual and may differ from other models.
- For more information and manuals to suit, see the "Resources" links below:
Basic Structure - Without Addition Parts

1 to 1 structure

This is the most common way to use the H4 system, it includes a Outdoor Station, a Monitor and an adapter.

*Example only, diagram may change depending on model. See owners manual.*
2 to N structure

Use the built-in two way connector to extend 2 Outdoor Stations and connect Multi Monitors directly(Max.5 Monitors).

Example only, Other models may differ in connection. See the units supplied manual.
2 to 1 structure

Use the built-in two way connector to extend 2 Outdoor Stations.

Example only. Other models may differ in connection. See the units supplied manual.
CCTV camera connection

Use the built-in two way connector to extend a CCTV camera dirrectly.

Example only, Other models may differ in connection. See the units supplied manual.
1 to N structure

Extend Multi Monitors directly(Max.5 Monitors).

Example only, Other models may differ in connection. See the units supplied manual.

Television connection

Connect television to the Monitor dirrectly, video can be shifted and display on the television.

Example only, Other models may differ in connection. See the units supplied manual.

### Advanced Structure - With Additional Parts

MDS unit connection

Using the MDS (Multi Doorstation Switch) unit to extend 4 Door stations or CCTV cameras.

Example only, Other models may differ in connection. See the units supplied manual.

RLC unit connection

Using the RLC (Lamp/Lock control) unit to control a lamp or an additional electronic lock.

Example only, Other models may differ in connection. See the units supplied manual.
